FOOD AT SHOPPING CENTRES

Over three quarters of diners (79%) believe the quality and range of restaurants in shopping and leisure centres has improved over the past three years, according to new research by HospitalityGEM. The vast majority of diners (77%) choose to eat in a casual dining restaurant, rather than a fast food restaurant (16%) or get food from a grab and go outlet (7%), when visiting a shopping and entertainment centre. Only one in ten (9%) would choose to book a table in advance when dining at a shopping centre.
